Europe for 9/11 Truth Evening at the European Parliament !

by Bill Douglas *Page 2 of 2 page(s)*

http://www.opednews.com

We've seen a video revolution on youtube where neocon thugs like David Frum have been confronted on their deception of the American people and world to launch two illegal wars.

We've seen cointelpro hack and so-called "Skeptics Magazine" editor, Shermer, who is absolutely not skeptical at all when it comes to believing everything one of the most dishonest administrations in American history has fed him, challenged by people demanding 9/11 truth.

And now the European Parliament is holding a 9/11 truth presentation . . . but US corporate media continues to sit on all of this.

How long can their dam hold?

What can we do about this censorship around 9/11 ?

"The Shell Game" by best selling author Steve Alten hit #31 on the New York Times Best Seller list two weeks ago. This explosive novel is about false flag terror perpetrated by our government to fool Americans into illegal oil wars. Sound familiar?

This author is urging listeners when he appears on media to realize that the 9/11 truth movement activists are heroes they should all be supporting.

Together, we can spread the word on this explosive new book, using resources at www.TheShellGame.net and drive it to #1.

By doing so, we guarantee it will appear in supermarkets, Target stores, gas stations, etc. etc. exposing possibly millions of Americans to information including REAL 9/11 truth research within the book, as well as most major 9/11 truth websites at www.TheShellGame.net

Spread this POWERFUL 911 truth trailer throughout the internet, and help do your part to spread 9/11 truth to a mass mainstream public, as this author appears on media and demands a new 9/11 investigation.

Re: Europe for 9/11 Truth Evening at European Parliament

If we are to right this once-great country of ours from the blatant malfeasance which has infiltrated our government then, perhaps, it just might require an outside entity to hold this rogue and maniacal Bush cabal accountable?

Our current U.S. Congress certainly isn't going to do it. That is for DAM sure!

911 truth may paradoxically light the fuse of WW3...

Assuming that the 9/11 false-flag attacks were a Cheney/Mossad production, which seems very likely to be the case, turning up the heat may light the fuse of WW3.

If there is no big war and no martial law in the U.S., then, handing power over to another U.S. administration, e.g., the Obama administration, may be an unacceptable risk for the conspirators. Let's face it any semblance of a "real" independent investigation into 911 will reveal who the real criminals are, and Cheney and Bush and their Israeli criminal handlers will likely take the world down before they go down.

If there are any "people" left in the U.S. government with a sense of self-preservation (let alone "patriotism", "moral competency", etc.), they really need to act soon to stop Bush and Cheney before it's too late.

Re: Europe for 9/11 Truth

I've been emailing Keith Olbermann with information regarding 911 Truth including Shell Game, but most recently this article which was posted at OEN. **countdown@msnbc.com**

Principal Electrical Engineer for WTC: "Fuel and Planes Alone Did NOT Bring the Towers Down"

Believe me, Olbermann, Dobbs, Blitzer, they all know what the F's goin down. They play dumb, so that they continue to dumb down "we the people." It's their job.

Sure Olbermann has serious moments with his Special Comments, but imagine if he spent an entire hour just on the 911 Truth? You think General Electric is going to allow that to happen? Yeah, right! And I've got a better chance at getting artificially inseminated!

Oh, no, the media all knows, and have. That's not the point . . . Olberman knows, yet you send him 9/11 info. Why?

BECAUSE THEY HAVE TO FEEL THE PRESSURE. THEY HAVE TO KNOW THAT WE ALL KNOW.

Congress and media are cowards, well some are paid CIA which is a known fact, but most are just cowards.

For six years they have been afraid of looking at 9/11 with a critical eye . . .

They have to get pounded day after day after day with thousands and thousands of demand to investigate 9/11 . . .

. . . because eventually the cowards will fear the rising tide of anger in America for their aiding the cover up . . . then they are of the perpetrators of 9/11.

Never tell people to stop hammering Congress and the press, that is playing into neocon hands. Keep the pressure up. Build the pressure.

Now, having said that . . . we can dramatically increase the number of Americans who know we were lied into 9/11 . . . by helping "The Shell Game" get to #1 on the NY Times best seller list.

Two weeks ago we got it to #31. That's only a few thousands books away from #1. ONce it hits number one, millions of

Americans are exposed the explosive truths in that book at supermarkets, Target stores, etc. etc.

This is good, but for the next two months try this . . .

Try posting signs and wearing stickers that say, "Read THE SHELL GAME, a powerful new best selling novel." Here's why.

If we can drive this to #1 in the next two months on the NY Times Best Seller list, it gets picked up by supermarkets, Target stores, etc. etc.

And Steve Alten "The Shell Game"s author gets on more and more media to tell audiences that the 9/11 truth movement are heroes they should all be supporting.

This could EXPLODE 9/11 TRUTH INTO THE MAINSTREAM MIND !!

www.TheShellGame.net find two 90 second video trailers on 911 truth and Oil Wars, that we can spread through the internet, bloggosphere, etc. etc.

Re: Europe for 9/11 Truth

The date is March 28, 2008 and author Steve Alten's "The Shell Game" has reached # 1 on the N.Y. Times Best Seller list. Mr. Alten is then asked to appear on MSNBC's Count Down with Keith Olbermann to elaborate on his successful new book. Part way through this sobering interview both Mr. Alten and Obermann implore the American people to demand there be a new investigation into what happened on that horrific day, September 11, 2001.

The very next morning the phones at NBC are ringing of the hook. It

is an irate America, demanding to know the truth?

One can only hope this scenario plays out?

The "Shell Game" is Propaganda

The Global Elite want people to believe Peak Oil is real. This is why they create such propaganda as "The Shell Game".

The Global Elite take advantage of the gullible 9/11 "truth movement" and encourage them to promote their propaganda. The gullible "truth movement" think they do good, but they do harm. The "truth movement" does grave harm by fooling people into falling for the Peak Oil Hoax.

The Global Elite knows the "truth movement" is blind to what's really going on in the world, and use them to their advantage.

Learn the harm the "Shell Game" does and the propaganda it promotes by watching the following lecture detailing the Peak Oil Hoax:

Lindsey Williams - The Energy Non-Crisis
75:00
Lindsey Williams, who has been an ordained Baptist minister for 28 years, went to Alaska in 1971 as a missionary. The Transalaska oil pipeline began its construction phase in 1974, and because of Mr. Williams' love for his country and concern for the spiritual welfare of the "pipeliners," he volunteered to serve as Chaplain on the pipeline, with the subsequent full support of the Alyeska Pipeline Company. Because of the executive status accorded to him as Chaplain, he was given access to information documented in his eye opening book, The Energy

Non-Crisis.
After numerous public speaking engagements in the western states, certain government officials and concerned individuals urged Mr. Williams to put into print what he saw and heard, stating that they felt this information was vital to national security. Mr. Williams firmly believes that whoever controls energy controls the economy. Thus, The Energy Non-Crisis.

As you learned in my COINTEL primer, you can always spot the agents when they spend their time attacking other 9/11 truth activists as CB Brooklyn above does relentlessly.

She pushes her space beams or nuclear bombs. Why? Because that makes the entire movement look nuts. That's the plan folks, in case you didn't know yet.

They filed their looney law suit in NYC so that when sane 9/11 truth seekers file suits they get smeared as being in the looney bin with CB's wild theories.

If you go to **www.TheShellGame.net** you'll see links to all the major rational 9/11 truth sites . . . CB's favorites won't be there because they are insane.

So, if you really want a 9/11 investigation, based on rational thought, that will actually get people to look deeper, do all you can to share "The Shell Game" and the resources at **www.TheShellGame.net**

Or you can push CB's lunatic theories about space beams, or nuclear bombs, or whatever which will be sure to drive any one far far away from looking into 9/11 truth issues.

www.TheShellGame.net

Oh, and I'm sure CB will get a couple of her pals to attack everyone but the crazy crowd as they have done for years.

NOTE that all the most respected 9/11 truth fighters recognize the value of supporting "The Shell Game"

We, the undersigned, urge everyone seeking truth, peace and justice, to not only purchase this new novel, "The Shell Game," but also to email out this appeal to all you know who seek truth, peace and justice in the form of 9/11 truth coming out. In turn, please urge them to do the same with all their contacts and urge them to do the same.

We can break 9/11 truth open if we work together and focus on this project for the next 30 days.

Roark, how naive are you?

Roark, since the inception of the 9/11 truth movement there have been three ways that infiltrators have tried to stop any significant effort to raise public awareness of the questions around 9/11.

1) They attack you for not saying "THE JEWS DID IT"

2) They attack you for not saying "space weapons did it, or 3) nuclear bombs did it, and there were no planes that hit the WTCs only holograms"

CB above refers to a whacky case filed in NY court claiming the above. This was done to make the courts dismiss legitimate cases on real 9/11 questions.

In Jane Harmon's Homeland Security hearings a speaker from the Simon Weisenthal Center deliberately smeared "Architects and Engineers for 9/11 Truth" by placing them among Jiahadi "anti-semetic" organizations.

In a nationally aired documentary "The Protocals of Zion" 9/11 truth activists were smeared by insinuating they were a hate group along with neo-nazis. etc.

If you think the biggest crime of our century did not have plans to destroy any one or any group that would call attention to the massive problems with the official myth of 9/11 the government has tried to sell us . . . well, you are either naive beyond comprehension . . . or your on the same payroll as them.

Roark....

Bill Douglas is being taken for a total fool by the 9/11 perpetrators. Yes, he is paranoid, but his real problem lies within his method of thinking:

Bill Douglas is just like the people who refuse to consider 9/11 being an inside job. Note the terms he uses when responding to me (whacky, looney bin, etc). Those are the same types of terms used by OGCT believers, and you know that.

Douglas calls me a "she" when I already said numerous times that I am a he.

Why do I frequently reply in Douglas' posts? Simple: It disgusts me to see someone promoting propaganda. It doesn't matter that it's Bill Douglas. It's the constant promotion of propaganda that bugs me.

Drs Wood/Reynolds' theories/ court cases, etc are doing nothing but becoming more and more popular. But Douglas refuses to realize that because he considers them, as he puts it, "wacky". But why does he consider it "wacky"? Answer: Because he's been brainwashed into doing so by the 9/11 perpetrators. Check my DEW/ TV-Fakery Suppression Timeline (linked above) for an example of how Steven Jones (who was planted by the perpetrators) brainwashes the "truth movement" into thinking in that manner. I have pointed that info out time and time again to Douglas but he refuses to see it and he continues to promote Jones.

Douglas might think he's representing the truth of 9/11, but he does not, and should really be ashamed of himself. I rarely speak up like this, but as I said, this Shell Game nonsense disgusts me. In fact, I might write a special article detailing the Shell Game propaganda and post it all over the internet, like my other articles.

As I said, the Directed Energy Weapon / TV-Fakery theories are becoming more and more popular. Now that John Hutchison is with us, the entire "free energy" crowd is as well.
