RattleTrap 1776 , [6/15/23 5:43 PM UTC](#)

Man, Donald Freakin' John Trump just trolled every hater, troll, libtard, unicorn flamethrower, and all these fake Patriots that think they support "Trump" yet call me a grifter and a conspiracy theorist for simply showing the Military Laws, Regulations, Optics and Comms, plus Federal Laws, Executive Orders, Statutes, Acts, and Codes... and it was freakin' epic to say the least. What vindication and validation!

You know how I always say, "you gotta go read it" and I always illustrate every time he signed something into Law, he would hold it up, PUBLICLY, then it would be published on the Federal Register dot Gov...? Yeah?

Yeah... ANOTHER moment to turn off the 'Black Box,' go to Google, type in Espionage Act, and read what it actually is about. Now... before we get there... allow me, the broken record, to break another record and put this in the order of which it's supposed to be.

'You gotta read or listen to those of us who know!'

"We're a Nation of Laws and Orders" isn't just some cool slogan and 'rah-rah' up your britches.

There's a simple Blueprint for this Miami scenario that can paint the whole picture for those who want the short gist.

Law of War Manual  
Military Justice Act  
Federal Continuity Directives  
December 2019  
Proclamation 9994  
Executive Order 13912  
December 2020  
January 20, 2021  
17 Gold Fringes  
Lieutenant General Flynn  
Miami Federal Courthouse

There's 2 Powers in the United States.

1. Military
2. Federal Government

The Founders actually started the Revolutionary War on April 19, 1775, with the Battle of Lexington and Concord THEN established the first branch of the Military, the Army, on June 14, 1775, then 16 days later the first Military Law called the War Articles on June 30, 1775, then the Navy, October 13, 1775, then the Continental Marine Corps, November 10, 1775, then the first Flag, the Grand Union Flag, December 3, 1775, then the Declaration of Independence, July 4, 1776, then the American Flag, June 14, 1777, then the first U.S. Constitution, November 15, 1777, then the U.S. Constitution September 17, 1787, then the Bill of Rights, December 15, 1791.

Not difficult at all.

In Federal Continuity Directive 1, Roman Numeral 3, it specifically says that FCD1 supersedes FCD-1 from February 2012. Layman's terms = start with the new one, that one, January 17, 2017. The Operational dates of it in the Federal Register were 2018-2022.

FCD1:

FCD1 Operational Dates (FEMA's Strategic Plan):

<https://www.govinfo.gov/content/pkg/FR-2020-11-05/pdf/2020-24588.pdf>

In Federal Continuity Directive 2, Roman Numeral 3, it specifically says that FCD2 supersedes FCD-2 from July 2013. Layman's terms = start with the new one, that one, June 13, 2017. The Operational dates of it in the Federal Register ARE 2020-2024.

FCD2:

FCD2 Operational Dates (DHS Strategic Plan):

<https://www.govinfo.gov/content/pkg/FR-2020-11-05/pdf/2020-24588.pdf>

The most recent issue, there's been 5 after those two, is April 2023. It specifically says inside of it, "in consistent with Executive Order 13961" which is the most recent Executive Order it references which was 2.5 years ago, December 7, 2020, which is CJC Donald John Trump's EO titled the Federal Mission Resilience Strategy which outlines the support of the 2017 National Security Strategy and the National Essential Functions the 3 Branches of Government must perform to maintain a Constitutional Republic and Government.

If "Joe Biden" was President... How come an April 2023 Government issued, Congress passed guideline, of the two outlines now 6 years old, does not have one single anything of his in it, if they are nonsense? If they're nonsense and do not mean anything, why's your taxpayer dollar being spent on those to type them, publish them, and house the data to maintain those sites?

RattleTrap 1776 , [6/15/23 5:43 PM UTC](#)

Do you know the 'Inflation Reduction Act' that "Biden" signed is actually the Taxpayer First Act (Trump Signed) incorporated into the IRA... which would be considered a National Essential Function... because the FCD1 and FCD2 plus the 5 other issues under those: February 2018, May 2020, January 2021, July 2021, and April 2023 clearly show a 'continuity' (all pun intended) of new releases and guidelines for State, Local, Tribal, and Territorial Government until the finish date of FCD2 which specifically shows 2024 in the Federal Register dot Gov.

Another one of those dot Gov sites that your taxpayer dollar is funding for all this "nonsense."

When the Federal Government is under a Continuity of Government, all 3 Branches of Government are to perform their ESSENTIAL functions to maintain constitutional government. That means the Constitution is on a pause and the Military is in a Military Occupancy which is found in the Law of War Manual which is the Department of Defense's guideline and handbook.

That does not mean the Military is overthrowing the government. Be careful who you follow when they say that's what we're advocating. That couldn't be farther from the truth. The Oath that every soldier takes from

10 U.S. Code 502 specifically says:

"I do solemnly swear to SUPPORT and DEFEND the CONSTITUTION of the United States against ALL enemies, foreign AND domestic; that I will bear true faith and allegiance to the same; and that I will obey the orders of the President of the United States and the orders of the officers appointed over me, according to REGULATIONS and the UNIFORM of MILITARY JUSTICE, so help me God."

Interesting... the Constitution is first mentioned. It doesn't say to support and defend the President. It says the Constitution. The same Constitution the Military Justice Act of 2016 clarified and supported our Founders for the first time in U.S. History.

Which is why Marbury vs. Madison, 1803, is vitally important. The case of Marbury vs. Madison established the principle of [judicial review in the United States](#), meaning that American courts have the power to strike down laws and statutes that they find to violate the [Constitution of the United States](#).

Ruling on Marbury vs. Madison, 1803:

The powers of the legislature are defined and limited; and that those limits may not be mistaken or forgotten, the constitution is written. ... Certainly all those who have framed written constitutions contemplate them as forming the fundamental and paramount law of the nation, and consequently the theory of every such government must be, that an act of the legislature, repugnant to the constitution, is void.

— Marbury, 5 U.S. at 176–77

Repugnant definition: unacceptable, in conflict with, and incompatible with.

The Military Justice Act of 2016 was written by the United States Supreme Court BEFORE the Courts - Judicial Branch, Congress - Legislative Branch, and Presidency - Executive Branch went under a Continuity of Government... and was not passed until the 2017 National Defense Authorization Act which is the Defense budget which would be a National Essential Function.

The MJA 2016 clarifies 3 major things that have not been clarified since the Foundation of Military:

1. Military Laws supersedes Civilian Laws.
2. President and Commander-in-Chief are separate.
3. Commander-in-Chief (Article II) is separate from Article III (Federal Government)

Meaning, the United States Military, can act without Congress supporting the Declaration of Independence which specially says:

*"That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."*

RattleTrap 1776 , [6/15/23 5:43 PM UTC](#)

*"But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security."*

It is their right and it is their duty to throw off such Government...

**Their** = future tense and generations to come.

**Right** = capitalized.

**Right** definition = restore to normal, upright position.

**Duty** definition = a moral or legal obligation; a responsibility.

**Alter** definition = change or cause to change in character or composition, typically in a comparatively small but significant way.

**Abolish** definition = formally put an end to (a system, practice, or institution).

There's soooo many "Laws" from 1871 to present day that are repugnant to the Constitution and even some before it. This is a cleanout of the

globalist elites who've put a bag over heads for many years. Stop defending them. Everything above and below is to help you, not hurt you.

December 20, 2019, CIC Trump established the United States' 6th Branch of Military, the Space Force. On the same day, overshadowed by the Lamestream Media (though under a code, 47 U.S.Code 606), the Military's Court Martial handbook was modified and also for the first time since its establishment in 1950, the Uniform Code of Military Justice was reissued with new strict guidelines. Which by the way, if it's all "nonsense" garbage... How come "Biden" has never spoken or stuttered the words 'Space Force'? And how come the United States Army and Navy transferred ALL Communications to the Space Force in August and December 2022? How come the Army's transferring the Missile Warning System to the Space Force? Oh the irony that Article II of the Constitution, the Commander-in-Chief clause that the Military Justice Act of 2016 clarifies is separate from Article III (Federal Government), says the President is CIC of the Army and Navy, and ohhhhhhhh even more the irony that Donald John Trump established the Space Force as the 6th Branch of Military and Stammering Joe cannot even mention the words Space Force in 2.5 years... yet he's "CIC?" LOL

On March 13, 2020, CIC DJT declared a National Emergency with Proclamation 9994, and on March 27, 2020, he Federalized 1 MILLION Reserve Components to Active-Duty. That is a DIRECT MILITARY ORDER from the Commander-in-Chief. Donald John Trump is not the Commander-in-Chief of the People. He is the Commander-in-Chief of the Military. That is a DIRECT ORDER.

On March 30, 2020, CIC DJT held a major Press Conference on "Covid" in which he told the whole damn world what his 'jab' was... 36 million doses of Hydroxychloroquine and 1 million doses of Chloroquine administered to the Government and Hospitals and said more would come. ORIGIN matters. It's not my fault no one would listen to us that knew. And it's not my fault your Hospital CEOs, Boards, and Doctors wouldn't take a stand for the Laws and Orders in place. Welcome to Crimes Against Humanity... also found in these "nonsense" dot GOV sites.

As long as Donald John Trump is doing the 3 S's of the Military: Showering, Shaving, and Shi....g, he holds that command. However, not only was it a direct order, but he also put it in Executive Order 13912... and has 4 codes in it: 10 U.S. Code 12302, and 3 from Title 14, that

specifically call into duty (when enacted / invoked) all Ready Reserves and retired, prior service, and officers of the Coast Guard.

And as of June 15, 2023, the Federal Register shows Proclamation 9994 as terminated, yet, does not list a President under it as ALL National Emergencies do in the FR. Because #HeAint.

[https://uscode.house.gov/view.xhtml?req=\(title:50%20section:1621%20edition:prelim\)](https://uscode.house.gov/view.xhtml?req=(title:50%20section:1621%20edition:prelim))

March 2020 made CIC DJT a Wartime President. When he says, "if they're going to investigate me, they must investigate every President before me, immediately." That's because he used EVERY Law placed by other Presidents and Congresses... Those Laws allowed him to pass and sign those under his Presidency.

RattleTrap 1776 , [6/15/23 5:43 PM UTC](#)

More specifically, he used 50 United States Code Chapter 33 Section 1541... which is the same 50 U.S. Code and Franklin D. Roosevelt. Which is the same 50 U.S. Code where the Espionage Act of 1917 was listed before being moved to 18 U.S. Code. Now just why would Congress move that code to a Crime and Criminal Procedure section? Blackmail? Setting up a Commander-in-Chief who got out of the boundaries of their Federal Corporation Agenda?

December 2020... I have a picture of CIC Trump speaking to a room full of the massive team who he was recognizing for their work on the 'Russia Collusion' case which was all a facade because when you know we're under a COG and Military Occupancy... those were all parts of the movie to expose the treason and frauds of the Swamp. The picture is the one of the last pictures of CIC Trump in front of the Flags with zero Gold Fringes.

Next time you saw him in January 2021... there were 17 Gold Fringe Flags behind him. Amazing how there're 17 Military and Military related agencies out of 21 on Quantum.gov... you know the "nonsense" about the new Gold Standard we're going back to with his speeches, "America's Golden Age is just ahead" and you got that state Texas, that isn't that big of a deal, they'd only break the back of the United States if they left the union and went back to the Republic they were..., yeah, they're going to the Gold Backed Digital Currency on September 1, 2023, but those Flags

were just a "symbol" and "nonsense."

Then on January 20, 2021, with the whole world watching, whoever had a Black Box witnessed the most beautiful sight ever... oh wait, "nonsense" sight ever... via the OFFICIAL Presidential Salute Battery known as the Old Guard, the 3rd Infantry Regiment... were with DONALD JOHN TRUMP at Joint Base Andrews with the traditional and Military Customs 4 cannons, 21 Guns which is a 21 Gun Salute and Presidential Inauguration.

Meanwhile, the Lamestream Media, under 47 U.S. Code 606, shows two different "Biden" films... one recorded and one live due to those stragglers who would get close... but what perfection of planning... the "Covid Inauguration" where they didn't have ANY civilians... who swore in at 11:47 AM EST which is a violation of the 20th Amendment of the Constitution... that same Constitution specified in the Oath of Military Service... freakin' weird, right?

Then the dang NBC straight up lies to all their viewers that JRB Jr. is receiving a 21 Gun Salute in their Closed-Caption on screen for 3rd graders to create a distraction from what was right in front of everyone... not to mention one of the Fox channels specifically says "21 Gun Salute fired BEFORE President Biden and Harris arrive"... Now..... if that fool got 81 million votes by sitting in his basement in his whitie tighties and only pulling 20 cars at speeches before the election... why in the hell couldn't he watch his "salute"? Do you really believe the Mainstream Media would allow such if they weren't under Military Control and Code? Do you honestly believe they wouldn't blow the whistle? Do you honestly believe that NO ONE knew that 3 Cannons was a Funeral Service?

I mean, it's only found on one of the most sacred places in the United States' website...Arlington National Cemetery dot Mil... one of those dadgum official dot Military sites... a 21 Gun Salute is NOT to be confused with the firing of 3 Volleys.

3 Cannons = Military Funeral Honors.

On January 20, 2021, Joseph Robinette Biden Jr. received a Military Funeral Service.

Now when you take ALL of the above which are straight up Military Laws, Orders, Regulations, and Customs... Now let's look at the Miami Federal Courthouse which is shaped like a vessel aka a ship...

Admiralty Law = Admiral = Navy = Nautical = Water = Law of Nautical Matters = Maritime Law = Gold Fringed Flags = Admiralty Courts.

Not to mention, but to mention, there's 3 key things that pair with his "if they're going to investigate me, they must investigate every President before me, immediately" quote:

1. Presidential Records Act of 1978
- 2.

RattleTrap 1776 🇺🇸, [6/15/23 5:43 PM UTC](#)

Executive Privilege

3. Executive Order 13489

CIC Donald John Trump has every right to any Documents, ESPECIALLY during a time of WAR. The problem is... MAJORITY of Americans know NOTHING about our Laws and Orders and want to insert their opinions and cast judgment instead of VOTING for these things as they've been written and legislated through the years.

As a Senator and Vice President, Joseph Robinette dog pony soldier boy, all the kids wanted to touch his golden hairy legs in the pool, Biden Jr. did NOT have those privileges as Senator and Vice President, and ALL of the Documents found at his multiple locations, but especially the Corvette, were taken while he was Senator and VP...

The Presidential Records Act speaks for itself... the documents JRBJR took as a Senator... does not qualify under this Act. And those he took as VP does not fall under the EO 13489.

EO 13489 was signed by Obama on January 21, 2009, which also clarifies Executive Privilege as well as addressing NARA. How many times have you heard CIC DJT say the terms NARA? If you've paid attention, MULTIPLE times. There's your Comms.

EO 13849:

<https://www.federalregister.gov/documents/2009/01/26/E9-1712/presidential-records>

If "Biden" was President... how come he does not invoke Executive Privilege? I mean, that's what the damn words mean... Privilege of the Executive Branch which would cover Presidents and Vice Presidents.

Now let's look at GRAND SLAM of what happened this week with the "arraignment" of CIC DJT... This chess game just got freakin' epic. Such a brilliant strategy by using the Espionage Act which is what they're "accusing" him of... with 37 Counts.

Espionage Act:

It was intended to prohibit interference with military operations or recruitment, to prevent insubordination in the military, and to prevent the support of United States enemies during wartime.

How come no one goes to the Origin? lol This Act stemmed from the Defense Secrets Act of 1911, which was one of the first laws in the U.S. for criminalizing the disclosure of government secrets. The language of the 1911 act, especially the notion of information 'relating' to the 'national defense' being obtained or delivered to 'those not entitled to receive it', was retained through subsequent American secrecy laws, including the Espionage Act of 1917 and the McCarran Internal Security Act of 1950. Many later Espionage Act cases, for example *Gorin v. United States*, involved arguments about the exact meaning of terms like 'national defense'.

But Gorin was not a freakin' Commander-in-Chief operating under a Military Occupancy and Continuity of Government. HUGE difference.

Thomas Paine in 1777 published information from the Committee of Secret Correspondence about France's aid to the American revolutionary war effort; he was simply fired. Alexis de Tocqueville also commented on the casual nature in which he was given original documents into his permanent possession just by asking for them. The storage of documents was haphazard as well.

T-Paine and Tune Toc (if you don't get the references, you did not have friends who listened to Rap) were not freakin' Commander-in-Chiefs operating under a Military Occupancy and Continuity of Government. HUGE difference, yet again.

Did you not read and apply the types of Documents that were unsealed that CIC Trump "had"... Continuity of Operations Plan with Military (COOP) which are found in the Federal Continuity Directives for the Continuity of Government?

They're publicly telling the whole world there's a Military Occupancy with a Military Operation via Continuity of Operation Plan (COOP) that's been taking place LOL

Do you really believe that Donald John Trump has interfered with Military Operations or recruitment? LOL

He federalized 1 Million National Guard to Active-Duty, whether the order expired or not (for sake of argument), no matter how you slice that pie, we're still under Continuity of Government because the FCDs outline so, which means we're still under a Military Occupancy as the operating entity.

RattleTrap 1776 , [6/15/23 5:43 PM UTC](#)

Do you really believe that Donald John Trump supports or supported our enemies? LOL With a \$770 Billion dollar defense budget, never started ANY wars, talks about ending defense contractors and lobbyists because they make excuses to keep us in stupid wars, Sword Ceremony in Saudi Arabia, walked into North Korea - FIRST President to do so and didn't start a Nuclear War, he dropped the MOAB on Afghanistan, wiped out the Caliphate and destroyed ISIS, and the list can continue, established the Abraham Accords aka Peace in the Middle East - Oh ye of short memories.

Insubordination definition: defiance of authority; refusal to obey orders.

Insubordination LOLLOL as Commander-in-Chief, he is the Authority. He's the very top of the 'food chain' in the Chain of Command.

None of the other UNDER the Espionage Act applies when the premise of the Act is checked off. They're showing the whole world via the "Documents" that were shown that there's a Military Operation that's been taking place and it's all already in public information and view, one must critically think versus watch a 30 second TikTok video and also differentiate who's got your best interest versus ALL the podcasters out

there wanting a platform for other reasons.

The other thing is... by allowing the Courts to take actual current and live Documents, that allows ALL Presidential Documents to be UNSEALED. Hence CIC DJT's truth that the "Seal" has been broken with "Seal" in quotations. Those people out there who think 'Q' is a 'Conspiracy Theory' and don't want to understand Military Intelligence and Comms. The Q Drops on the "Seal" to the day are mirror images written in 2018 and 2019.

There must be a 'value' put on learning the truth before documents are or have to be unsealed. Majority of Americans need to value, appreciate, and take pride in the Foundation of America. Which means Americans need to learn the difference in Politics and Government... and understand the line was drawn in the sand in 2016 by the United States Military Generals with a World Alliance who are in operations to obliterate the Deep State aka the Swamp to drain that political side where 'we the people' can take back our Government with Checks n' Balances our Founders put into place where it doesn't create this crap show effect of the multilayered divisions and splitting of hairs.

This isn't just another 4 years of Politics. Everyone's watching the most brilliant Chess game played, and it's all been planned for a LONG time, and the good guys are in control.

They literally just showed the whole world the Military's been in Operations with the COG now known as COOP which are found in the most recent issue of the FCDs, April 2023, consistent with DONALD JOHN TRUMP'S Executive Order 13961, the Federal Mission Resilience Strategy, that too, outlines National Essential Functions of the 3 Branches of Government

Time to wake up and start using the critical thinking of your brains again.  
#MakeBrainsStrongAgain
