On Reiner's first court appearance after the long Easter break, he and his legal team made what can easily be termed bombshell - that there has been a Dossier Reiner Fuellmich from the German state with the express purpose to take him out, notably out of any possibility of gaining a position in the political arena. I understand the concerns of the German state. Here was someone with integrity and courage, with charisma and intelligence, with extensive experience plus shared leadership in a small German political party. Very appealing to many people fed up with mandates, loss of freedom of speech, mass immigration, and ever so much else. Here was a suitable leader.

Anyway, here is the Dossier, from bittel.tv. You can also find it on Roger Bittel's Telegram channel:

All of the dossier is important. However, you may be most interested in the last section:

Well is anyone surprised? Governments all over the world use these tactics against their citizens. Will the German people stand for it? My guess is they will but Reiner will never let it go! Well done!!!

I cry to see such evil occurring against this wonderful man who works to do what God wants him to do. Pray for God's protection around him, and the destruction of Evil. 🙏
