Which is why on November 3, 2020, President Trump issued a Presidential Emergency, known as a **PEAD**, a Presidential Emergency Active Document. The only people who can know what's in that Document are the President and Military Generals. However, based on the Law and Order from 2017 up to that date along with Military Regulations, Optics, Symbolism, and Visual Operations... A Veteran or person like myself can tell you what's in that Document based on those up to that day.

President Trump ended the Air Force military space program and established the Independent Space Force in December 2019. DUE to the above and ALL Law and Order from January 20, 2017, the activation of those 4 bullets in Executive Order 13848 with the key bullet: Maritime Law, on November 3, 2020, and the **PEAD** signed that day... NO President was legally confirmed on January 6th, 2021, and did not have to be, because of the unaddressed National Emergencies from 2018 and 2020, Presidential Enhancement Act of 2019/2020, the Presidential Emergency Active Document, the invoking of the Insurrection Act of 1807 which are all 47 U.S. Code 606 titled War Powers of the President.

November 8, 2016, was the death of the Establishment as Military Generals and Operatives with President Trump at the helm, took control of our Nation. Everything from January 20, 2017, to January 20, 2021, via the Uniform Code of Military Justice aka Military Law, Military Regulations, Military Optics, Military Symbolizations, the Declaration of Independence, the Constitution, Presidential Emergency powers (**PEADs**), Presidential Acts, Executive Orders, the invoking of the Insurrection Act of 1807, Marine Law of 1834, Law of War Manual, Executive Order 13919 activating Military Reserves Components in all 50 states, and 47 U.S. Code 606 plus ALL UCMJ and Constitutional actions... ALL of those EXTENDED President Trump's powers as President. There's been no less than 300 Military Aircraft in the skies every single day since January 2021

EVERYTHING below is nothing but LAW AND ORDER. The Executive Orders from January 20, 2017, to January 20, 2021, Military Law, Law of War Manual, Military Justice Act, Military Regulations, Military Operations, Military Optics, Military Code, Presidential Emergencies (**PEADs**), National Emergencies, Presidential Acts, via the Constitution, U.S. Law and U.S. Codes... hold ALL of the answers to this Biblical, Monumental, Historical, Covert Operation. First and foremost, it needs to be made clear, there's a difference in Constitutional Law prior to 1871, and post 1871. There's plenty of career Politicians, Lawyers, and people who misconstrue, butcher, and twist the Constitution

President Trump and FEMA declared two more National Emergencies in 2020 that also were also never addressed by that Congress. Which is why on November 3, 2020, President Trump issued a Presidential Emergency, known as a **PEAD**, a Presidential Emergency Active Document. The only people who can know what's in that Document are the President and Military Generals. Imagine that... the same way our Founders broke from the British Parliament... They started the Revolutionary War that lasted 8 years

(1775 to 1783). The British revolted in 1812... ended in 1814, as we kicked their butts again. DUE to Law and Order from January 20, 2017, the activation of those 4 bullets in Executive Order 13848 with the key bullet: on November 3, 2020, and the **PEAD** signed that day, NO President was legally confirmed on January 6th, 2021... and did not have to be. Because everything from Nov. 3, 2020, to that point started the final installation of the Covert Operation via the Constitution and President Trump's 1776 Commission (activated March 2, 2021; not a coincidence 2 days before the original Inauguration date, March 4:

Military decided to: "Shall we play a game?" - Q Let them expose themselves. It's a Covert Sting Operation = a good Military Psychological Operation. It had to be controlled for a reason. From 2017 to present day... President Trump used the Constitution, Military Law, **PEADs**, PAs, Executive Orders, and it alllllll happened right in front of your eyes. Check this... In every single Executive Order that President Trump signed from 2017 to 2021, that has to do with this Operation, not ONE single EO went into effect until AFTER November 3, 2020, all the way into 2021, 2022,

And here's where it gets really, really, really good. **P.E.A.D.** The other most important piece of Law is the Presidential Emergency Action Document(s) better known as a **PEAD**. **PEADs** are between the President and the Military (Pentagon). NO ONE, not even Congress knows what is inside of them. That's why it's IMPERATIVE for you to understand The Constitution is the highest in the land surrounded by Military and Military Law. Which is why it's important to listen to those of us who quote this like the back of our eyelids... THAT and THOSE are how you "know who to trust." The reason we (military guys like me who know Military Law, Regs, Codes, Optics, etc.) can 95% or better know what is inside of the **PEAD** that Trump signed... is due to the actions taken by the Military from 2017 to 2021 and from 2021 to present day. There's enough evidence via the Constitution, Military Law, Presidential Acts, National Emergencies, Executive Orders and actions via all lines of Defense to show what is in one of them. Here it is: An emergency declaration that vested ALL power of the Chief Executive and whatever Legislative Powers deemed necessary by that trusted person to lead the

government-in-exile or better known as Continuation of Government. Guess who that person is? Commander-in-Chief Donald John Trump. This **PEAD** is equivalent to the Commonwealth Act No. 671 which is archived in U.S. Law. Also the President's powers to do so are in Article VI of the Constitution. Commonwealth Act No. 671:

2018 with the specific date of November 3, 2020, inside of it, Maritime Law inside of it, and a National Emergency, and other Presidential Emergencies. Notice the General's quote ON Election Day: Here's how we know what was in this **PEAD** by the actions we had already seen via Military and Law... "We took what we learned in 2018." He said this on ELECTION DAY. LOL @US_CYBERCOM = United States Cyber Command US CyberCom: <https://www.cybercom.mil/>

Emergency, Maritime Jurisdictions, and Election Fraud Committee to be activated on November 3, 2020, and report all the way into Fall of 2021 with the KEY and SPECIFIC NOVEMBER 3, 2020, DATE covered in that 2018 order. A little time before the Election, a **PEAD** was written to transfer ALL governing authority to the President of the United States upon a triggering event which would also have a COG with it. That triggering event was proof of a foreign government directly or indirectly colluding with election officials to change the results of the election. Insert: See the mirror word: colluding.

/ ... /

Those 'made-to-order' ballots pushed Biden over the top. He was "declared" the "winner." Which goes back to the General's tweet... as the Military was watching the fraudulent voting... Election infrastructure was absorbed into critical infrastructure as a part of the Dept. of Homeland Security in 2017. The Military discovered evidence that an enemy government assisted domestic agents with stealing the election...and that discovery triggered the **PEAD**. THIS is the **PEAD** that - for all intents and purposes - activated devolution. You have got to read the Commonwealth Act to understand the repeat of history

about the government-in-exile of the Philippines. Commonwealth Act No. 671 vested all governing authority of the Philippines into one man, President Manuel L. Quezon. Trump and the Government of the United States are now the same person. The **PEAD** had to be activated prior to the vote counts that declared Biden the winner. While the Democrats were scrambling and cheating to push their now actor candidate across the finish line, the **PEAD** was already activated. Mike Pompeo made the mainstream media laugh when he said these keywords: "We would be transitioning to a second Trump Presidency." "We're ready." "The world is watching."

Philippines when Manila fell. (Read: Commonwealth Act above). In this video, he was speaking futuristically, "would be"... they knew this was not going to happen, hence the activation of Active Duty, National Guard, and Reserve components of all 50 states (the latter has never been done in History). We're ready: The **PEAD** was already activated along with Executive Orders, Maritime Law, Presidential Emergencies, and troops were on standby getting ready. The World is watching: And stillllll watching. "The evidence and crimes will be shown to the world and they will pay for their crimes and it will be done with FULL ACCORDANCE TO THE LAW." We're going to count ALL the votes - we will need these later to PROVE the election was stolen. Hence the SCIF, Military Intel via Quantum Info System, the 17 Military Agencies all working together watching fraud in live time. Also hence the General's comment that day. There will be electors selected: These were needed to secure Trump's presidency-in-exile in full compliance with the law. Electors are Trump's people - they may have easily signed NDA's, if they were even needed. The **PEAD** would allow Trump to suspend elections in order to save the nation if he deemed it necessary. There's a process: The constitution spells it out very clearly. We count votes, select electors, elect a President. However, the constitution also gives the President power to act in the event of emergencies and invasion. Once the **PEAD** was activated that vested governing authority in the current President (Trump), that President could have suspended elections - legally. The timing was critical. The evidence triggering the **PEAD** had to be uncovered prior to the vote counts being complete and "Biden" declared winner. The world should have every confidence that the transition necessary that the State department is functional today, is successful today, and will be successful with the President who is

sworn in on January 20th, a minute after noon will also be successful:

So, why did "Biden" swear in at 10 AM EST? 🏆👁️👉 This **PEAD** was equally important as all the Executive Orders, National Emergencies, and which led to the Activation of Troops in January. On May 6, 2020, Trump specifically said: "We went through the worst attack we've ever had on our country, this is the worst attack we've ever had... this is worse than Pearl Harbor, this is worse than the World Trade Center. There's never been an attack like

Chaos. Division. Create a problem, already have a solution for the people. Build, destroy, rebuild, repeat. Covid-19 was not an accident. It was a Biological Chemical Attack against the world. With that **PEAD**... here's the end game with it: It created a Government in Exile. Which is why President Trump left in Air Force One (which NO PRESIDENT has ever left D.C. in or on post Noon EST) and has been moved around like a chess piece when needed. Everything from selection of electors, January 6, and "inauguration" were the visual and illegal actions for the

Emergencies, Presidential Acts, National Emergencies, from 2017 to 2021. As in the U.S. Law of the Commonwealth Act No. 671, a puppet was too, also "sworn in" in 1941 in the Philippines... The puppet does not mean a thing, because the Commonwealth Act No. 671 protected the Philippine people from Japan. This **PEAD** and all of the other Law and Order around it, protect you. Remember... President Trump's words from 2016 forward: "We are draining the swamp." "We have it all." "We've caught them all."

Simply displaying their crimes to the world as President Trump said they would. Military and Federal Laws and Orders are not Conspiracy Theories. Americans must see... the "Biden Admin" is a fraudulent and fake administration according to the Constitution, Military and Federal

Law. That's also why the cronies cannot address the National Emergency from Executive Order 13848 along with the **PEAD**, and many other important Executive Orders. Not only because they believe they are invincible to the majority of clueless Americans, but admitting of the attack would open the multiple files, layers, and evidence of intelligence from our US Military of the Election Fraud (dumping of millions of votes). Those who used their assets to fund Chinese Communist Party and Military, Ukraine, etc. which are

This Act ended up being a 'Safety Net' that wasn't needed because of the activation of all 3 lines of defenses in the Nation via the Insurrection Act of 1807, a power of the President to activate National Guard to Federal Duty, which according to the Articles of the Constitution extends the powers of the President. Plus the November 3, 2020, **PEAD**, along with the signing of Executive Order 13919 in 2019, giving the Secretary of Defense full authority to activate all 50 states Reserve components (never done in the History of U.S.). The Enhancement Act of 2020 specifically said, "the former sitting President would have full control of the military for 60 days after Inauguration." Which meant Trump would have had military control 60 days after "Biden" was inaugurated... which never happened.

Along with: Due to the **PEAD** being in place before November 3, 2020, everything from that point forward via Congress is a script to be played out to the people to see the illegal violations to support the U.S. Codes violated via the Constitution. "Biden" had to illegally accept the nomination and be visually, illegally "inaugurated" to the public in order to complete treason and fraud according to:

/ ... /

When you saw those Troops enter the District of Columbia, a foreign territory in Military terminology and language, you should and could have known. This is ALSO why it's important to read the LAW about the

United States becoming a Corporation (way above) and it being a foreign entity and the square miles. Which is also why “Biden” became a foreign object after the **PEAD** activated along with Executive Order 13848 and other laws. The Media are going to be held accountable at the Military Tribunals too. Everything from November 3, 2020, is all a script, they have to write articles that violate the U.S. Codes because they did not adhere to the Military and Trump from 2017 to November 3, 2020.

/ ... /

They DID NOT have ANY options left because ALL of Trump’s Executive Orders, Presidential Acts, were all put into place in Executive Orders in 2017, 2018, 2019, for November 3, 2020, and beyond to present day. Therefore the only option they had left on the table was to drop the “Nuclear Option” which was the ultimate division and use of a Biochemical Weapon... which came from CHINA and the UKRAINE. This is also why Trump had to issue the **PEAD** for November 3, 2020... Remember the General’s tweet on Election Day? Conclusion to lead to Part Two: Everything you’ve witnessed from October 2016, to January 20, 2017, to November 3, 2020, to present day is a Covert Operation.

In 2019, the Senate was controlled by Republicans... The other thing that needs to be addressed is the portion of Doctors and Nurses that are for and encouraging the wrong vaccine.
