SOS från the Original Sovereign Tribal Federation

⚠️SOS⚠️

Read more and see more about the Original Sovereign Tribal Federation from Northern Australia on their Official Website at <https://originalsovereigntribalfederation.com/>. From another video on that site we read, "Wirritjin is an Ancient Prophecy that a white man would come to these lands and there would be great suffering for a period of time. One day the Black and White would stand together to create a positive direction together. That time has come and United, we are the Wirritjin. We invite all to join us and unite everyone to create a healthy and prosperous future for all humanity."

Rekommenderar att på deras site även lyssna på historien bakom King Charles V 'Sword of Deliverance'. MYCKET intressant.

Detta nedan bekräftar också, och innebär även att den som inte ger sitt stöd nu är medskyldig till folkmord. Jag ger mitt stöd.

Northern Territory Labor trying to get rid of Aboriginal communities
NOV 8 Posted by Editor, cairnsnews

Letter to the Editor

There's no way I will let them touch my child or me and my family. Theses people are so evil when are they going to realize that they can't just force another human being into a death sentence that is what it is. They're so blinded by their greed selfish ambitions they're already dead themselves as it is, they don't have life anymore, life is precious we are all here once to live life to the fullest.

Not to be cut short because of a person or a bunch of corrupt pharmaceutical industry and their puppets timeframe agendas. We can turn the heat up and turn the table around on them with people power and I believe that God Almighty Jesus Christ Holy Spirit. Will and are protecting us. Here in the Northern Territory we have never had a coronavirus case in Our Aboriginal communities so they are trying to figure out a way to bring in the disease and affect us.

It's not working so they are trying get rid of us with the jab. They have targeted us so they can try and take over our land up here. They have been making deals with Northern Land Council they have been fracking without our knowledge on the land allowing people to fish in our waters giving vouchers to tourists that comes up here. This government is disgusting.
