"*: "Pulling people from the land and air jurisdictions into the jurisdiction of the sea is known as "press-ganging" and it has been outlawed for 200 years. When the sea jurisdiction laps onto the land, it is called "inland piracy" — that's outlawed too. When people of the land jurisdiction are forced to donate the fruits of their labor against their will it is known as "peonage" or "enslavement" — also outlawed." ("Corporate America Reduced" by Anna Maria Riezinger and James Clinton Belcher, p. 51.) Compare p. 57, the crimes of Personage and Barratry."

They reference their codes. Modern letters of Marque.

"(ger. privatisieren)- privatise comes from the word private... Latin for Rob and steal..."

I'm re-listening time after time. There is so much in that short 10 minutes. I posted it here, <http://blog.lege.net/?/457-Trump-bankrupting-the-US-Corporation.html>, even though my web server bandwidth doesn't really work for others, but it works for me and it's a reminder for me. I also sent this blog as an e-mail and added this:

"Note: When you dissolve the corporation, you dissolve it's internal laws and go back to the law of the land, common law, etc.."

The foundation of law is so far outside the paradigm for most that there is nothing else to do than to keep rubbing it in. They, most, simply don't get where "law" comes from.

"these takings heads didn't even question the corporation part. Very interesting."

Maybe it went over their heads :cool

How do we get compensated for the harm done against our unalienable rights referencing the corporate modern letters of Marque? Are they aware of their liabilities in their Conspiracy against rights and that they can also be accessories after the fact when administering the spoils from an initial act of "inland piracy"?

Yes I listened to it 3 times and will do again with headphones. The woman is amazing.
Assuming "America" as the territory as a whole, with law of the land, without a central bank (central bank -communism) but with a state Bank e.g. America Bank.
To get that, they need to do the opposite of what was done to Germany, more precise German Empire. (German empire was not crowned by the Vatican, the emperor crowned himself).

United States of America must:

Declare bankruptcy

Declare the offices of the federal organs impotent and not functioning

Declare all law of the sea null and void

Declare all states sovereign and the federal states including contracts dissolved.

Declaration of "America" with all sovereign organs alive and able to act. Declaration of the law of the land fully functioning, able to act.

Declare a new insurance off money structure.

All legal Americans need to vote as a human, with signature and date and location.

No longer can "ius Soli" be applied, but only "ius sanguinis".

Every American needs to prove his family tree, going back to 1776 or at least 1870.

... And on and on.

But if you resurrect the law of the land, you need these... At least.

The rest can be taken care of...

{anonymised}, 8/4/23 8:35 PM UTC

A compensation can only be done by a currency reset, introduction of money (gold & silver), no taxes, no strawman games, full liability...

The pirates need to go to a gulag, and through very hard manual labor, pay off the damages caused. They will lose all property, all rights to property and have no rights whatsoever anymore...

Possible under law of the land...

Notes:

'ius soli' — The principle that the nationality of a person is determined on the basis of their country of birth

'ius sanguinis' is Latin for 'the law of the blood' ('ius'—'law'; 'sanguis'—'blood'). The notion of 'ius sanguinis' generally conveys a legal principle whereby descent is the main element based on which a certain legal status is attributed to a person.

Precis som Jan Halper-Hayes säger så kunde inte den verkliga situationen avslöjas för den stora massan för tidigt då det skulle resulterat i inbördeskrig, hon säger inte varför men det är p.g.a. människorna då inte alla skulle kunna ta till sig att det är rätt och riktigt det som skett och sker, det som nu håller på att synliggöras även för "normisarna".

Detta har bäring på vårt eget land ... Läs vidare på...

Now think about why this is correct. If the optic "authority" is signaling again and again that it is not a legitimate authority, who is responsible if they still insist on acting as if the fake "authority" was real? Does not the responsibility fall back on the individual, 18 U.S. Code § 3 — Accessory after the fact, when it is clearly signaled that there is no legitimate government? clif @clif_high 2:14 AM · Feb 28, 2023 UTC: "It's coming fairly soon. According to Derek Johnson, from 2017 to 2021, President Trump gave the evil players and media a chance to tell the truth, step across the "line" (optic), and their punishments would be lesser according to the Uniform Code of Military Justice and U.S. Codes (U.S. Law) for the Crimes Against Humanity, Treason, and Frauds committed and to be punished at the Military Tribunals but that everything from November 3, 2020, are all optics.

Blue clad Pirates with badges are not operating under The Constitution and when The Constitution soon will again be applied in Courts of Law, they better be aware of their liabilities under 18 U.S. Code § 241 - Conspiracy against rights. Section 242 of Title 18 makes it a crime for a person acting under color of any law to willfully deprive a person of a right or privilege protected by the Constitution or laws of the United States.

Same applies in every nation where "officers" and their co-conspirators (think public prosecutors, municipal courts, etc.) are acting under color of law but where there is no actual valid authority, there is only crime syndicates / private war lords of different sizes. That we must deal with as one always have to deal with criminal organizations. When they act as if they are "the government" one may need to take in military force to subdue the insurgency that are unlawfully occupying our nations (also called a belligerent occupation, see DoD Law of War Manual, 11.1.1.1.). Resources: <http://blog.lege.net/?/435-Together,-we-are-the-Counterinsurgency.html>. This belligerent occupation or insurgency had to be broken, which is/was not easy given how entrenched it is. <http://blog.lege.net/?/456-Had-to-be-broken.html>

Swedish readers will want to refer to <http://blog.lege.net/?/452-Utan-omsorg,-undergang.html> for the Swedish equivalents to 18 U.S. Code.
