Open Letter to Jan Eliasson  
President of the UN General Assembly

Uniting for Peace: Strengthen the General Assembly.

The international board of the Transnational Foundation, TFF sends an Open Letter that aims to stimulate a wider discussion about the preconditions for a genuine peace process also after UN Security Council Resolution 1701.

Some of the points:

Invigorate Uniting for Peace. Plan a comprehensive all-inclusive OSCE-like conference under UN leadership. Provide genuinely impartial mediation and conflict-resolution. Implement Security Council resolutions on the Middle East as a Nuclear-Free Zone.

Involve civil society, push reconciliation. And give the UN a clear mandate and adequate resources.

This - not bombs, extremism and hate - can help peace break out in the region.

The Open Letter already enjoys the support of distinguished civil society leaders. We encourage everyone to sign it.
