[#128680;](#) Audio of Intl Lawyer Reiner Füllmich reporting in his own words, in English after the 2 hearings in court (still in preventive detention):

“[...] So at the beginning of the main proceedings the atmosphere was dramatically turned so that for a long time there

was no possibility for me to present my version of the story, so that even the Staatsanwalt (district attorney / prosecutor) noticed that something absolutely was not right.

So after one year and 3 months of doing things secretly and damaging my chance to speak because he was under pressure from the Berliner authorities, as he was threatened, if you give space to him, then we need to withdraw the charges.

After that happened and I did, despite this, come to be able to speak, and also our lawyers were given enough space to tell our story, they noticed something was not right.

So here are two narratives or 2 stories side by side, one from Justus Hoffman with the others going along, that Reiner Fuellmich took millions, 58% of the funds, to live well. He did that secretly, behind our backs.

My version is that Viviane and I did have actual expenses which we took from the expense account.

We did that as the business leaders of the Corona Committee, as the only ones who cared about the business of the Corona Committee. In order to avoid what happened to Bhakti, because if our funds were seized, as happened to him, then we could not have continued with the Corona Committee, because we would not have had the means.

Therefore we openly, not secretly as claimed, withdrew money, and that is all in the books of the Corona Committee. And the court can see that.

Also I have always been ready and also in a position to return the money because I had enough real estate, like the house that was already planned to be sold at the end of 2020. That would have brought in 1,350,000 Euros, so that the 700,000 could easily be repaid that I took from the Corona Committee.

But that did not work because Justus Hoffman and his cohorts with their betrayal and pressure on the buyer and, so it is turning out they took away these exact funds.

It does not matter if they were the exact bank notes. That is irrelevant.

I believe we can prove this. In fact, I am absolutely sure that the witnesses who will be testifying will verify our version of the story. And if that is what is shown then the cards will need to be mixed once more, to see who needs to be facing a prison sentence."

It looks rather good, things could be turning around and the real criminals revealed ...&#128079;&#127995;&#10024; #FreeReiner

American politics would have marched on at a status quo indefinitely until the sovereignty of the nation was surrendered slowly, but surely, to the global agenda.

What you are observing now is the backlash to the Presidency of the one who slipped through cracks.

I'm tired of people playing in black and white, trying to call balls and strikes on a conservative/liberal agenda scale, when in reality, Trump is the only man who could have accelerated the enemy to the point of fracture.

Napoleon said "never interrupt your enemy when he is making a mistake."

Trump deserves the gratitude of all Americans for stepping up into this place in history.

"Covid was only the revealing event, like the litmus in an acid test."

Excerpt in 2x1 landscape PDF form from Irène Lhoste, The European Union Technocracy, Bureaucrats and the Theft of Democracy—an EU civil servant's account, Monday, 3rd July 2023, 2023-07-03T16:17:11+01:00, <https://www.ukcolumn.org/article/the-european-union-technocracy-bureaucrats-and-the-theft-of-democracy-an-eu-civil-servants> , <https://t.me/realLegeNet/50632> .

The above excerpt inline:

"Covid was only the revealing event, like the litmus in an acid test."

"What happens 'in a crisis' instead

Admittedly, the 'normal' decision-making procedure has its limits and caveats. Its official appellation ("Ordinary Legislative Procedure"), however, is not to say that it is what happens by default.

Normal only applies in normal times—and times are rarely normal. Crises, on the other hand, benefit from very different rules. Take the Covid 'crisis'. None of the laws and rules adopted during this period, whether at national or EU level, followed the formalities explained above. In the name of 'efficiency', 'urgency', 'cutting red tape', 'saving lives', 'acting decisively', etc., all sorts of corners were cut—mostly the good ones, the ones that are supposed to ensure transparency and accountability and keep alight the feeble flame of democracy.

No impact assessment was carried out; no open call for tender was held when contracting the pandemic 'counter-measures', including the vaccines. Everything was suddenly exclusively top-down, and the EU public administration—like any other national administration in Europe, the UK, US, and everywhere else—just followed religiously the instructions received from the political level.

To the outside observer for whom things are clear and whose mind is made up that this was a hoax pandemic, it may seem inconceivable that so many people—the EU administration being calculated at around 32,000 people, including those from the executive agencies (i.e., not including entities such as the EMA, Frontex or Europol)—could blindly follow orders that today, at the remove of just a couple of years, seem so unequivocally absurd, deceitful and harmful towards people.

Part of the explanation for this evident failure lies in the fact that in reality, out of this huge administration, only a handful of people deal with any given subject. Not even the Commission's entire Directorate-General for Health (DG SANTE)—which is based far away from Brussels in County Meath—was involved in this; only a task force under one of the units of one of the Directorates worked directly on the job.

Moreover, as is often the way in sensitive situations, the Commission does not employ its own experienced civil servants with deep expertise in the matter, but ad-hoc contractual agents, drafted in to a grade outranking the civil servants, to carry out the task in hand. These are people hired on a short-term contract and not with the best salary. They would carry out any task without asking any question or putting two and two together, just to please their boss, to make sure the contract gets extended so that they can continue to have a job. Among the managerial class, it is a foregone conclusion that the individuals who achieve senior positions will be careerists who long since decided to sacrifice any moral backbone for the benefit of a promotion. So nobody will speak and everyone will avert their gaze rather than jeopardise their yearning to climb the greasy pole.

The creeping corruption in the system

Having inhabited the system for a while, I have formed my own theory about how such a gargantuan failure was possible. The culprit is half human corruption, half incompetence. This modus operandi did not wait for a massive blow like the Covid pandemic to strike in order to take shape inside the EU bureaucracy. Covid was only the revealing event, like the litmus in an acid test." (Irène Lhoste, *The European Union Technocracy, Bureaucrats and the Theft of Democracy*—an EU civil servant's account, Monday, 3rd July 2023, 2023-07-03T16:17:11+01:00, <https://www.ukcolumn.org/article/the-european-union-technocracy-bureaucrats-and-the-theft-of-democracy-an-eu-civil-servants>, <https://t.me/realLegeNet/50632>.)

### Public awareness might have just prevented Chernobyl 2.0

This is why it is so important to comprehend what is going on: "In other words, I think public awareness might have just prevented Chernobyl 2.0."

Clandestine &#128142; @WarClandestine 6:18 PM · Jul 6, 2023 UTC

June 21-30: Ukraine ramped up rhetoric that Russia had plans to sabotage ZNPP.

July 1-4: Massive external scraping on Twitter causing Elon to limit user views.

July 6: Ukraine claims threat of ZNPP sabotage is no more.

I think Western Intelligence were using AI to scrape social media to gauge public perception of the ZNPP/Ukraine, to see if the public were buying their Russian sabotage psyop.

What they found was that the public logically pieced together that Ukraine/Deep State are the ones who benefit from the potential sabotage, as their goal is to convince NATO to takeover the war and drag the US directly into conflict with Russia, because the counter-offensive was a catastrophe and the Ukrainian military failed.

Nobody was buying Zelensky's claims. Even the IAEA went out of their way to tell us that these claims of Russian-planted explosives were unverified.

I think Western Intelligence saw that the public were not buying their psyop attempt, and AI judged that they couldn't successfully pull it off because the data they scraped showed that the public were too keen to their plot. Thus Budanov claiming the threat has magically disappeared.

In other words, I think public awareness might have just prevented Chernobyl 2.0.

Regardless of if this is what actually happened or not, one thing is for certain; citizen journalists are dominating in the Information War right now. We are taking Western propaganda and dismantling it in quick succession. The enemy have lost their stranglehold on the narrative and thus public perception.

We are winning.

OCR + manual fixing of table format of the 1:st ChatGPT slide:

Here are some potential problems that weaponized MBP could present to a social order if there was a large group of officialdom pushing it onto the populace, presented in a table format sorted by severity:

Severity	Problem	Description
High	Public Health Crisis	Weaponized MBP can cause serious harm to the victims, leading to physical and psychological damage that can be difficult to treat. If a large group of officialdom is pushing it onto the populace, it could potentially cause a widespread public health crisis.
High	Loss of Trust in Officials	If the public becomes aware that a large group of officials is deliberately causing harm to vulnerable individuals, it could result in a loss of trust in officials and government institutions. This could have serious consequences for the stability and functioning of the social order.
High	Undermining of Democratic Processes	Weaponized MBP used by a large group of officialdom to manipulate the public could undermine democratic processes and lead to a breakdown of the rule of law. If officials are using their power to deliberately cause harm to individuals, it is a clear abuse of authority and a betrayal of the public trust.
Medium	Social Polarization	If the victims of weaponized MBP are seen as being from a particular demographic group, it could lead to social polarization and the creation of social divisions. This could have long-term consequences for social cohesion and stability.
Medium	Economic Disruption	Weaponized MBP could result in economic disruption if the victims require medical care, rehabilitation, or other forms of support. This could strain the healthcare system and lead to increased costs for the society as a whole.
Low	International Relations	If weaponized MBP is being used as a Form of hidden warfare by a foreign power, it could have implications for international relations and geopolitical stability. It could also damage the reputation of the social order on the international stage.

I en sällsynt dubbelintervju med Dr Judy Mikovits och Mikki Willis, producent av Plandemic Series och författare till Plandemic Series <https://plandemicseries.com/> på Health and Freedom Conference.

Vi diskuterar vem som är ansvarig, vilka som har fångats [underförstått med brott mot mänskligheten, folkmord, etc.] och varför datat kommer att få dem alla på fall. &#128293;&#128293;&#128293;

LegeNet: Det finns väldigt väldigt väldigt mycket bra i dessa korta 24 minuter, men här är en av nyckeldelarna, 00:20:28.910 --> 00:20:32.300

till

00:23:40.640 --> 00:23:43.740,  
utan tidsstämplar:

allt du behöver göra är att visa det för en bra vetenskapsman.

Um vi jag använder exemplet med doktor Stephen B Balin som är en magnifik forskare vid Johns Hopkins University och vårt samarbete för nästan 30 år sedan.

Vi gjorde det för 30 år sedan i söndags.

Jag försvarade min doktorsavhandling och det var då han kom och han bad mig hålla ett föredrag och vi började ett samarbete som verkligen var en paradigmskiftande studie

som, ahm, Epigenetics

Den söker virusets uttryck.

Det handlar inte om virusets närvaro.

Så det är därför det snabba ta testet, ta testet, ta testet.

Men vi kan till och med använda kunskapen som en PCR.

Så jag drar nytta av forskare som kommer att titta på det.

Och jag gav det till honom.

Jag jag skickade bokstavligen ett mejl till honom förra veckan

och han svarade mig. Och han och Frank och jag var liksom, ja.

För vi visste att dessa forskare skulle hedra sin skyldighet

i en korruptions tidsålder och bara titta på data.

Vi är vetenskapsmän, vi tittar på data, och som du vet det du sa med opinionsundersökningar,

du vet Tony Faucis modeller modeller.

vi tittar på data, och så det spelar ingen roll så, och sedan entreprenörerna, de unga bioteknikerna, jag menar, gå och tjäna en biljon dollar och det är ett enkelt PCR-test.

För om du har vaccin COVID, som jag kallar det,

ahh, som de kallar COVID lunginflammation eller vad det nu är,

det beror på att den syntetiska lipida nanopartikeln

kräver en feber på 102°F (38.50°C) för att brista,

och och därav COVID lunginflammation,  
allt du kommer att se är spikproteinet.  
Så gör din PCR för spikproteinet och gör sedan den den  
rätta reguljära SARS Cove två  
och leta efter innanmätet av coronaviruset,  
du kommer inte att hitta det.  
Det stämmer.  
Och så med den andra med J och J och Pfizer,  
kommer du att hitta adenoviruset och då,  
om du inte hittar dessa två 50:50, så var det inte SARS Cove två.  
Det var vaccinet, och då kan man se avvikelser.  
Så du kan göra det, datat ljuger aldrig. Datat ljuger aldrig  
och det är som, spikade det, och  
så är det någon som kommer att  
gå och göra en förmögenhet.  
Hej, alla ni som köpte PCR-maskinen  
och satte den i er skåpbil och körde den runt om i världen.  
Gör rätt test. Det är ett enkelt primärtest.  
Jag kan konstruera det åt dig i morgon och ge dig det.  
Gå och tjäna en förmögenhet så ska vi bevisa vem som sprider  
varianterna, för du vet, data är data.  
Okej. Detta är en annan framtids fråga eftersom jag just tänkte  
på det när du pratade, men det är så många hemska saker som  
har hänt. Jag menar, det har bara varit ett sant sant brott  
mot vår mänsklighet. Uh det är inte ett politiskt uttalande.  
Det är ett faktum. Nürnberg 2.0. Vi ser, du vet,  
det finns bara så många aspekter av hur de bröt mot Nürnberg  
kodexen från början till slut. Skulle någon av er vilja sitta  
i den panelen när blir dags att domstolspröva dessa människor?  
Jag tycker att Judy hör hemma där.  
Um, säg det en gång till.  
Jag tycker att Judy hör hemma där.  
Visst. Du vet jag jag kan rättvist döma och naturligtvis menar  
jag data. Visa mig datat så ska jag visa dig att du visste datat.  
Jag ska visa dig att du visste att Hydroxiklorokin var ett vaccin  
och att och ni höll det hemligt för folket.  
Jag ska visa er att ni visste att Ivermectin var ett kraftfullt  
anti-cancer läkemedel och ni höll  
det borta från cancerpatienterna.  
De dödade min svärdotter. Jag kommer inte att ge upp.  
Jag vill sitta i den panelen.

### John Anthony Robles II articles on the ongoing Bio-EM-terrorism and genocide

Just linking to local copies. This post may be added to with further such links.

The Russia Report: Exposing the NWO Globalist Conspiracy 6th Edition

CORONAVIRUS: USA Biological Terrorism

John is currently working on an article about Gates pushing vaccinations for 7 billion people, and mention that fortunately for Russia Putin will have none of it.

My own comments:

There is an element to this terrorism matrix that is to take out the so called useless eaters and anyone who oppose this. The tech in the so called LED Street Lamps is far more and given far more power supply than the in reality LED Lasers (due to the lenses) would require. The larger supply and higher voltages go to directed radar antenna. Seems they unlawfully want to have total control over what happens on the street and inside nearby buildings. And likely also be able to induce various medical conditions and even death. Around 60 GHz can for example suffocate people by preventing oxygen uptake.

To have the local councils let this go on I suppose they already are targeted by their own 'kill switches' if they don't go along. In Sweden it is also so that all 'Nämndemän' in the courts, essentially citizen judges, are selected from such local council politicians. So it's doubtful if anything can be done about it inside the existing structures. Natural and Common Law Tribunals for Public Health & Justice MUST BE CREATED BY THE PEOPLE, FOR THE PEOPLE, and law enforcement ORDERED to obey or to stand down unless they also shall be judged under terrorism and genocide laws.

Proof that "LED Street Lights" are instead disguised high power radar and laser weapons systems with a variety of harming modes including killing you, see 18 m 8 s into the clip STREETLIGHTS AS A WEAPON #TERROR #GOVERNMENT #WEAPONS .
